### Section I: Transcultural Nursing: Importance, History, Concepts, Theory, and Research

**Chapter 1:** Transcultural Nursing: Development, Focus, Importance, and Historical Development (Leininger) ................................................................. 3
  - Definition, Nature, Rationale, and Importance of Transcultural Nursing ............. 4
  - Purpose and Goal of Transcultural Nursing ............................................................. 11
  - The Scope, Rationale of, and Factors Influencing Transcultural Nursing ............. 13
  - Scope of Transcultural Nursing ................................................................................. 22
  - Scope of Transcultural Nursing: Individual to Global Focus ................................. 22
  - Conceptualization of Transcultural Nursing ............................................................ 24
  - Global Human Cultures ............................................................................................ 26
  - Societal & National Cultures ................................................................................... 26
  - Regional & Community Cultures ............................................................................. 26
  - Institutional Cultures .................................................................................................. 26
  - Groups & Family Cultures ....................................................................................... 26
  - Individual Cultures .................................................................................................... 26
  - Discovering and Using Transcultural Nursing Knowledge: Model and Process ...... 27
  - Phases of Transcultural Nursing Knowledge and Uses ........................................... 27
  - Overview of Transcultural Nursing Practice ............................................................. 29
  - Glimpse of Transcultural Nursing Education Worldwide ....................................... 33
  - General Transcultural Nursing Research ................................................................. 37
  - Transcultural Nursing and Related Organizations .................................................. 39
  - A Historical Perspective of Transcultural Nursing .................................................. 41
  - Summary Review Points on Transcultural Nursing ................................................. 48
  - References .................................................................................................................. 52

**Bridging Reflections to Chapter 2** .............................................................................. 55

**Chapter 2:** Transcultural Nursing Perspectives: Basic Concepts, Principles, and Culture Care Incidents (Leininger) ................................................................. 57
  - Major Concepts to Understand in Transcultural Nursing ........................................ 58
  - Culture Care .............................................................................................................. 74
  - Generic (Lay and Folk) and Professional Care/Caring .............................................. 79
  - Overview of Transcultural Nursing’s Phases of Development (1955-1994) ............. 81
  - Basic Transcultural Nursing Care Principles ............................................................ 83
  - Incidents to Learn about Transcultural Nursing ....................................................... 84
  - Transcultural Nursing Clinical Incidents ................................................................ 85
  - Summary ..................................................................................................................... 89
  - References .................................................................................................................. 91
# Transcultural Nursing: Concepts, Theories, Research and Practices

## Chapter 3: Overview of Leininger’s Culture Care Theory (Leininger)
- Development of the Theory ................................................. 93
- Purpose and Goal of the Culture Care Theory with the Ethnomethod Method ......................................................... 94
- Theorizing and Developing Culture Care Theory ....................... 97
- Assumptive Premises of the Theory ........................................ 98
- Orientational Definitions .................................................. 103
- Sunrise Model: A Guide to Discovering Culture Care ................. 105
References ........................................................................ 107, 108

## Chapter 4: Culture Care Assessment to Guide Nursing Practices (Leininger)
- Rationale, Definitions, and Characteristics of Culture Care Assessments .......................................................... 115
- Use of the Sunrise Model and Principles for a Culture Care Assessment ....................................................... 116
- Summary Points and Principles for an Effective Assessment .................................................................................... 121
- Caring Rituals as Important Areas to Assess ......................... 129
- Life Cycle Rituals of Clients and Nurses ............................... 131
- Nurse Caring Rituals .............................................................. 133
- Stranger-Friend Enabler as a Guide for Assessment ............... 133
- Acculturation Enabler to Assess Culture Care and Health Patterns ....................................................... 138, 139
- An Alternative Short Assessment Guide ............................... 143
References ......................................................................... 143

## Chapter 5: Transcultural Nurse Specialists and Generalists: New Practitioners in Nursing (Leininger)
- Transcultural Nursing: Focus and Rationale ........................ 149
- Developing Transcultural Nurse Specialists and Generalists .............................................................. 150
- Reasons for Transcultural Nursing ........................................ 151
- Preparation of Transcultural Nurses ...................................... 153
- Preparation of Transcultural Nurse Specialists ...................... 157
- Transcultural Nurse Generalists .............................................. 157
- Status of Transcultural Nursing to Prepare Generalists and Specialists ................................................... 162
References ......................................................................... 164

## Section II: General Transcultural Nursing Domains .......................................................... 171

## Chapter 6: Types of Health Practitioners and Cultural Imposition (Leininger)
- Types of Health Practitioners ................................................. 173
- The Cultural Imposition Phenomenon .................................... 175
- Conflict Areas with Cultural Imposition ................................ 180
References ......................................................................... 183

## Chapter 7: Transcultural Food Functions, Beliefs, and Uses to Guide Nursing Practice (Leininger)
- Nurses Have an Important Role in Nutrition Uses .................. 187
- Universal Functions and Uses of Foods ................................ 188
References ......................................................................... 189

## Chapter 8: Culture of Nursing: Focus on American Nursing and Hospital Culture (Leininger)
- Why Learn About the Culture of Nursing? .......................... 205
- Definition of Culture and Subculture of Nursing .................. 207
- Identifying the Culture(s) of Nursing .................................... 209
Table of Contents

Historical Images of Nursing from Kalisch's Research ........................................ 210
The American Culture of Nursing: Early (1940–1974) and Recent (1975–1994) Eras .... 211
Dominant Comparative Core Features of the American Culture of Nursing ................. 212
Authority Relationships and Female Rights ....................................................... 219
Political Power and Politics .............................................................................. 222
Competition and the Culture of Nursing ............................................................ 224
Glimpses from Other Cultures of Nursing .......................................................... 226
The American Tribes of Nursing ................................................................. 229
American Hospital Culture ........................................................................... 236
References ........................................................................................................ 242

Chapter 9: Gnisrun and Enicidem: Two Strange Health Tribes in Acirema (Leininger) .... 245
The Gnisrun Tribe ......................................................................................... 246
A Glimpse: The “Old” Gnisrun and Enicidem Tribes ............................................ 249
Recent Nursing Culture ................................................................................... 251
The Enicidem Tribe ....................................................................................... 255
References ........................................................................................................ 261

Chapter 10: Cultural Perspectives of Pain (Villarruel) ........................................... 263
Theory of Culture Care Diversity and Universality ........................................... 265
Research and Practice Implications .................................................................. 270
Cultural Influences on Nurses’ Perceptions and Care Associated with Pain ............. 271
References ........................................................................................................ 275

Chapter 11: Transcultural Mental Health Nursing (Leininger) ................................ 279
Discovery of the Need for Changes ................................................................. 279
Questions for Reflection .................................................................................. 281
Fundamental Principles for Transcultural Mental Health Nursing ......................... 282
Psychocultural Specific Mental Health Conditions ............................................ 285
References ........................................................................................................ 292

Chapter 12: Ethical, Moral, and Legal Aspects of Transcultural Nursing (Leininger) .... 295
Worldwide General and Professional Concerns ............................................... 295
Importance of Transcultural Ethical, Moral, and Legal Care Knowledge ................. 297
Selected Culture-Specific Ethical and Moral Care Values .................................... 303
Contextual Spheres of Ethical Culture Care ....................................................... 307
References ........................................................................................................ 312

Section III: Culture Specific Care of Different Cultures ...................................... 315

Chapter 13: Arab Muslims and Culture Care (Luna) ............................................. 318
Learning about Arab Muslims ......................................................................... 320
Ethnohistorical Aspects of Arab Muslim Immigration .......................................... 321
The Worldview of Islamic Culture and Nursing Considerations .......................... 324
Language Significance, Symbolism, and Nursing Care ....................................... 325
Social Structure Factors and Nursing Care ...................................................... 326
Cultural Food Values and Care Considerations ............................................... 328
Health, Illness, and Care Beliefs and Practices .................................................. 330
Summary .......................................................................................................... 331

### Chapter 19: Lithuanian Americans and Culture Care (Gelazis)

- Theoretical Framework .............................................. 427
- Ethnohistory of Lithuanian Americans .......................... 428
- Review of Literature on Lithuanian Americans ............... 428
- Research Findings Related to Worldview, Social Structure, and Other Dimensions .... 431
- Culture Care Meanings ............................................. 433
- Transcultural Nursing Actions and Decisions Using the Three Modes for Culturally Congruent Care for Lithuanian Americans ..... 438
- Summary Reflections ............................................... 440
- References ............................................................ 441

### Chapter 20: Transcultural Nursing Care of American Gypsies (Bodnar and Leininger)

- Theoretical Perspective ............................................ 445
- Research Method ..................................................... 446
- Ethnohistorical and Worldview .................................... 447
- Specific Nursing and Health Care Research ..................... 448
- Analysis of Data and Cultural Care Findings ................. 460
- Major Research Findings Bearing on Gypsy Culture Care ... 461
- American (USA) Gypsy Dominant Cultural Values, Care Meanings, and Actions ....... 464
- Concluding Statements ............................................. 465
- References ............................................................ 466

### Chapter 21: Jewish Americans and Culture (Leininger)

- Ethnohistory .......................................................... 471
- Worldview ............................................................ 472
- Education and Religion ............................................. 473
- General Cultural Values ............................................ 475
- Kinship and the Generic (Folk) and Professional Health Care Systems ................. 477
- Technology ............................................................ 478
- Providing Congruent and Acceptable Nursing Care ............. 478
- References ............................................................ 483

### Chapter 22: Navajo Child Health Beliefs and Rearing Practices Within a Transcultural Nursing Framework: Literature Review (Phillips and Lobar)

- Caring Behaviors ..................................................... 485
- Tribal Themes .......................................................... 486
- Health-Illness Values and Beliefs ................................ 486
- Patterns of Behavior ................................................ 486
- Pre-Birth Phase ....................................................... 486
- Pre-Cradleboard Phase .............................................. 487
- Cradleboard Phase ................................................... 487
- Post-Cradleboard Phase ............................................. 488
- Nursing Care ........................................................ 488
- References ........................................................... 491

### Chapter 23: Transcultural Nursing and Child-Rearing of the Muckleshoots (Horn)

- Social and Cultural Background ................................ 500
- Specific Child-Rearing Practices ................................ 500
- Application of Leininger's Conceptual Model ................. 500
Classification of Data According to Persons from Whom Health Care Was Sought ... 509
Classification of Data According to Kinds of Health Care Needed ... 509
Summary ...................................... 511
Addendum .................................... 511
References ................................... 514

Chapter 24: Japanese Americans and Culture Care (Leininger) .................................. 517
Ethnohistory and the People .............................................. 518
Dominant Cultural Values .............................................. 520
World View ................................................. 521
Culture Care Meanings and Action Modes with the Theory of Culture Care ............... 528
Culture care accommodation/negotiation ................................ 530
Culture care repatterning/restructuring ................................ 531
References ................................................. 532

Chapter 25: Southeast and Eastern Asians and Culture Care (Chinese, Korean, and Vietnamese) (Leininger) .......................................................... 535
Ethnohistorical and Geographic Dimensions .............................................. 536
East and Southeast Asia ................................................. 538
Worldview, Social Structure Commonalities, and Diversities with the Three Cultures .......................................................... 541
Specific Transcultural Nursing Care Research-Based Meanings and Action Modes ........... 554
References ................................................. 557

Chapter 26: Gadsup of New Guinea: Child-Rearing, Ethnocare, Ethnohealth, and Ethnomunising (Leininger) .......................................................... 559
Entering and Living with Gadsup .............................................. 560
Ethnography and Social Structure of the Gadsup .............................................. 563
Infant to Adult Phases with Values, Beliefs, and Practices ......................... 566
Culture Care nursing Implications With Leininger’s Theory ......................... 581
References ................................................. 589

Chapter 27: Culturally-Based Health-Illness Patterns in South Africa and Humanistic Nursing Care Practices (Mashebe) .......................................................... 591
The Cultural Background of Africans .............................................. 592
The African Tradition of Health, Illness and Healing .............................................. 593
Humanistic Nursing Practices ................................................. 597
References ................................................. 601

Section IV: Teaching Transcultural Nursing .......................................................... 603
Chapter 28: Teaching Transcultural Nursing in Undergraduate and Graduate Programs (Leininger) .......................................................... 605
Transforming Nursing Through Teaching Transcultural Nursing ......................... 605
Reasons for Shifting to Transcultural Nursing with New Curricular Perspectives ............. 607
The Current State, and Issues of, and Approaches to Transcultural Nursing Education .......................................................... 610
References ................................................. 625
Exhibit 1 ................................................. 627
Exhibit 2 ................................................. 631
Exhibit 3 ................................................. 635
Section V: Future of Transcultural Nursing

Chapter 29: Transcultural Nursing: Quo Vadis (Where Goeth the Field?) (Leininger)

- The First Era: Establishing the Field of Transcultural Nursing (1955-1975)
- The Third Era: Establishing Transcultural Nursing Worldwide (1983 and into the Twenty-First Century)

Future Trends and Challenges in Transcultural Nursing
